Technical Skill

- ReactJS
- HTML, CSS, JavaScript
- BootStrap, Thaiwand css
- Python
- Core Java
- SQL and NoSQL
- DynamoDB
- AWS Serverless computing
- Logic Building
- Version Control

Soft Skill

- Self Learning
- Research and analyses
- Decision making
- Communication
- Multi-tasking

Education Background

- Ballari Institute of Technology & Management
  Bachelor of Engineering, ECE
  Completed in 2021

- Hanagal Sri Kumareshwara Polytechnic, Ballari
  Diploma in ECE
  Completed in 2016

About Me

Dedicated and Self Learning Software Engineer with 1+ years of experience. looking for a challenging opportunity to fully utilize my training and skills while making a significant contribution to the organization.

Projects

Restaurant app using React
https://pavan-pani.github.io/restaurant/
build real time project on restaurant app using React.js
- Used "Redux toolkit" for Global State Management
- Used "Router-Dom" for multi-page interaction
- developed own API using API gateway and AWS lambda
- Used database as DynamoDB and storage for AWS S3

Student data management using AWS serverless
developed a AWS serverless project using SAM, Lambda, SQS API gatway, DynamoDB. created a .yaml file for SAM template to create required resources for the project and deployed to AWS CloudFormation

Created Static webpage and Hosting on AWS S3
http://pavanwebpage.s3-website-us-east-1.amazonaws.com/

Logic Building and Algorithms
- Movie tickets booking
- ATM display in multiple languages and its functionalities
- Restaurant billing

Professional Experience

Accenture | Application Developer Associate
2021 Oct – Present

Certificates and Training :
